18 RICHARD ARNOLD: Again my name is Richard
19 Arnold. I just wanted to make one comment based upon
20 some of our conversations during the executive session.
21 We had noticed during some of our questions and answers
22 I guess and some of the briefings that we had we were
23 basically told that we were to focus on the site
24 evaluation and that when we were bringing up issues of
25 transportation, they were saying we couldn't discuss

0030

1 those issues and we were really looking at the site
2 suitability evaluation.
3 But the thought occurred as me as I was
4 sitting on this side, I didn't see it when I was sitting
5 on that side, that over in the poster section there's a
6 poster on transportation, but yet we weren't supposed to
7 talk about it. It's kind of puzzling to me why we won't
8 be able to discuss it. End of comment.
